

MONKEY COLOURS

When I come into this class I see it **blue**
and I don't know why, so I ask myself,
is it possible, as anyone call tell,
that I am inside a large monkey zoo?

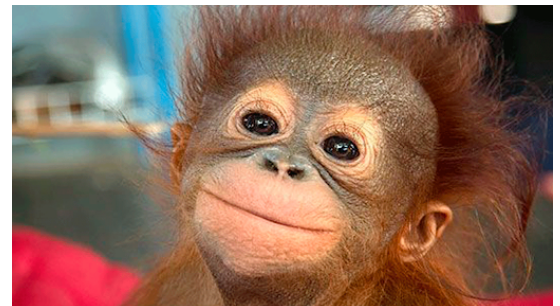

What's that big shadow, all **black**,
eating bananas, sitting on the floor?
Is it an ape reaching out for more,
or am I just seeing ghosts in the dark?

I close my eyes, can't be true what I see,
but when I open them again
I can't believe it, I can't explain...
outer space simians, all in **green**...

In between, a **red** lemur with skis,
its eyes burning, the nose bleeding,
coming towards me, speeding,
what can I do? My old ruler, please!

But nobody listens, they're **yellow**
pumpkins now, shouting Halloween,
creepy!,...but they're just primate-teens
I'll bong their empty heads with a cello...
